

Color Me A Rainbow

Read to the team:

This is a two-part problem. You will have 6 minutes to complete part 1. Part 1 is a non-verbal problem. No questions may be asked regarding the solution of the problem, although, you may ask the judges to reread any part of the instructions or scoring. Part 2 will be verbal responses to part 1.

Your problem:

Each team member is given a different color of marker. On a large piece of paper, team members, in a circle, will take turns adding onto the drawing of the person before them. After part one ends, team members that participated can make creative comments about the teams' masterpiece.

Scoring:

Use of colors: 1-10 points

Theme: 1-20 points

How well the team built upon the idea: 1-50 points

Complexity of the drawing: 1-50 points

Part two responses: 1 point for a common response, 5 points for a creative response.

REREAD THE PROBLEM.

For Coaches: After completing the above Spontaneous, have the group try it again, but this time, score the drawing as follows: All items drawn must be completed with more than one color. They may not color over another color. For instance: Some one could draw pants, another the shirt and another a hat, to form a person. They would not get any score for a yellow sun, but if they added orange rays of sunshine, this would score well. Remember that this is a non-verbal Spontaneous. Watch them stumble, and have a good laugh... Joe
